## EXECUTIVE SUMMARY

Python and Django developer with experience in full-stack web development, API integrations, and technical support. Skilled in building scalable applications, creating responsive interfaces, and delivering data-driven solutions. Strong background in troubleshooting, collaboration, and applying modern technologies to improve business outcomes.

## EXPERIENCE

### Thistle Media Pvt. Ltd. | Python Full Stack Developer – 2024

Gained hands-on experience with **full-stack web development** tools and frameworks, including **Python**, **HTML**, **CSS**, **JavaScript**, **WordPress**, and **OpenAI API** integration. During my tenure, I contributed to several impactful projects

**AI-Powered Chatbot and Web Interface**:

- Developed an interactive chatbot and dynamic webpage using Python, integrated with the OpenAI API to enhance user interaction and digital engagement.
- Responsive Website Development: Created responsive websites and user-centric interfaces using front-end technologies (HTML, CSS, JavaScript), and implemented custom solutions in WordPress
- Healthcare-Focused Projects: Delivered tailored digital products for prominent clients such as Manipal Hospital and MSRMH Hospital, improving accessibility and online visibility.
- Cross-Team Collaboration: Worked closely with designers and developers to produce intuitive, scalable, and accessible digital experiences aligned with client needs.

### IBM INDIA| Technical Executive – 2025

Built strong capabilities in web development, front-end engineering, and technical support within dynamic business environments. Played a key role in enhancing digital solutions and ensuring seamless user experiences through efficient troubleshooting and development

- Developed and maintained responsive web applications using **HTML, CSS, JavaScript, and Python frameworks**, ensuring cross-platform compatibility and performance.
- Supported front-end development for **Sephora's internal and customer-facing systems**, including POS interfaces, BOPCs, and mobile web apps, improving usability and reliability.
- Collaborated with backend teams to integrate APIs, manage databases, and implement secure user access via **Active Directory** and authentication systems.
- Assisted in incident resolution and recovery for web-based tools by coordinating with IT and cross-functional teams to ensure minimal downtime.

Contributed to **end-to-end web solution development**, combining **Python-based backend logic** with **modern front-end design principles** for healthcare and service sector projects

# TRAINING AND CERTIFICATES

### Full Stack Development Training

- Completed Python training with hands-on experience in Flask, Django REST, OpenAI API, NLP, Matplotlib, PyTorch, and front-end skills in HTML, CSS, and Bootstrap for responsive web development.

## Certificates

- Certified Python Developer from Besant Technologies with practical coding experience.
- Certified from Besant Technology for Front-End Development with practical coding experience in Html & CSS and Bootstrap with JavaScript for the web-based application.
- Certified by COITOR IT Tech for building a smart monitoring system using Raspberry Pi with gas sensors.

# PROJECTS

### Smart Walking Cane for the Visually Impaired using Raspberry Pi:

- Developed a smart walking cane using Raspberry Pi and ultrasonic sensors that detects obstacles and alerts the user through vibrations or audio feedback based on real-time distance measurements.

### Responsive AI Chatbot for Website using OpenAI API

- Created a dynamic chatbot using the OpenAI API that receives user input from a website, processes it through the API, and delivers intelligent, context-aware responses in natural language.

### Social Media Analysis Tool with Facebook API

- Built a Django-based web app integrating with Facebook Graph API to analyse account traffic, user engagement, and campaign performance.

### Sephora Website and Server Management System

- Managed Sephora's website and server operations, ensuring high performance, uptime, and security. Handled software maintenance, authentication, and credential management to support seamless and secure business operations.

# TECHNICAL SKILLS

- Python / Django - REST_Framework / API / Power BI Embed / GitHub / Pandas / NumPy /
- HTML / CSS / JavaScript / Bootstrap / ReactJS / Tailwind CSS /

# ACADEMICS

- Graduated from Dr. N.G.P Arts and Science College with a **B.Sc. Computer Technology** in 2023**.**
- Completed Higher Secondary from Saradha Vidyalaya Matric Hr. Secondary School in **SSLC** and **HSC** in 2020.
